

MOTION AMENDMENT BY SUPERVISOR HILDA SOLIS

December 16, 2014

While there are academic support programs for foster youth such as ***Cal Poly Pomona's Renaissance Scholars***, we also need to provide work experience opportunities while they are pursuing their post-secondary education; so that when these youth graduate, they are one step closer to a promising future.

**I, THEREFORE MOVE** that local community colleges and universities be included as potential partners and to also send a 5-signature letter asking each to establish a foster youth career development internship program on their campus.
